**Subject:** Update on Mercer County Clerk's Property Recording and Search System

### Important Update for Today with Gratitude

Dear Valued Real Estate/Title Professional, or Real Estate Attorney,

I'm very happy to share that the testing phase for Property Search component that I referenced yesterday is now complete, and the property searching site is officially ready to be used!

E-recording services are expected to be up and running approximately by the end of this week. We're hopeful that property recording for other land records will follow very shortly. I will notify your office when this functionality is complete.

I want to take a moment to sincerely thank all of the recorders and property searchers who have shown such patience, understanding, and professionalism during this time. I know this transition hasn't been easy for you, and I truly appreciate the flexibility and resilience you've shown as we are working to improve our systems.

Please know that your work is valued, and we are committed to continuing to support you. Thank you again for your patience — we're looking forward to moving ahead toward full restoration of our services together.

Sincerely,

*Paula Sollami Covello, Esq.*
